

ICE CELLAR.

We wish to announce to all users of ice that we have opened a cellar for its sale under the Henry Building, opposite the Postoffice, where our Mr. R. H. Murphy will be pleased to give every one full value of their money on tickets.

This ice is made on large iron plates, then cut into blocks. This process insures absolute purity, wonderful transparency, great density and freedom from air bubbles. It is more nearly like natural lake ice than it can be made by any other process, but is much purer and
